Specification

ePMP 5 GHz Force 200AR5- 25 High Gain Radio (ROW, EU Cord)

Channel Spacing	Configurable on 5MHz increments
Quality of service	Three level priority with packet classification by DSCP, COS, VLAN ID and MAC address, Broadcast, Multicast and station priority.
Transmit Power Range	-15 to 30 dbm
Ethernet Interface	10/100 baseT, compatible with cambium Poe and standard poe pinouts
Environmental	Outdoors Ip55 -30degree to +60 degree celcius
Wind survival	145km/hr
Mounting	Flexible pole-mount that supports diameters from 6.4cm-7.6cm
Power consumption	10w maximum, 5w Typical
Input voltage	10 to 30 v
Physical layer	2*2 MIMO/OFDM
